Dear Sirs:

Per the requirements of 40 CFR Part 262.56 Annual Reports, attached is the 2011 Annual Report for Air Products & Chemicals, Inc., Tamaqua PA Facility. We apologize for submitting this report so late. The cause of this was some confusion regarding who was going to complete the report and consequently we just realized it was never submitted. We have since added this task to our compliance management software, to prevent this from happening again in 2012. Should you have any questions or require additional information please feel free to contact me directly at the number listed below.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.

Sincerely,

262.56(a)(5)(i): WASTE REDUCTION EFFORTS

- Air Products works to ensure that hazardous wastes are properly segregated from non-hazardous wastes to minimize the total volume of hazardous waste generated. These waste streams are process related wastes, so as production volumes increase or decrease, so does the volume of hazardous waste.

262.56 (a)(5)(ii): WASTE REDUCTION RESULTS

- Air Products hasn't been able to quantify any reduction by properly segregating wastes.
